Ross Lovegrove

Wales, UK 1958

Ross Lovegrove is a designer and visionary whose work is considered to be at the very apex of stimulating a profound change in the physicality of our three dimensional world. Inspired by the logic and beauty of nature his design possess a trinity between technology, materials science and intelligent organic form, creating what many industrial leaders see as the new aesthetic expression for the 21st Century. There is always embedded a deeply human and resourceful approach in his designs, which project an optimism, and innovative vitality in everything he touches from cameras to cars to trains, aviation and architecture.

"PLASTIC" means retaining the fluidity and motion in inanimate objects.
